CAREER OBJECTIVE

Motivated and detail-oriented Software Developer with expertise in C and Java. Adept at designing and developing high-performance, low-latency applications for mission-critical systems. Seeking an opportunity to contribute my technical skills in software development, system optimization, and scalable solutions.

EDUCATION

Sri Venkateswaraa College of Technology – Chennai, India

CGPA: 7.9

Bachelor of Engineering, Computer Science and Engineering

2021 -2025

SKILLS

- **Programming Languages:** C, Java, Python, JavaScript, SQL.
- **Software Development:** Data Structures & Algorithms, OOPS.
- **Frameworks & Technologies:** Spring Boot, React.js, MongoDB, MySQL.
- **Version Control & Tools:** Git, Postman, Gradle.

INTERNSHIPS

Software Engineering Intern – Mr. Cooper

(July 2024 – Aug 2024)

- Designed and developed backend components for a Surplus Food Management system.
- Optimized SQL queries and API calls to enhance system performance.
- Debugged and tested code to ensure high availability and efficiency.
- **Tech Stack:** Java, Spring Boot, React.js, MySQL

CERTIFICATIONS

- **JAVA Development** – Prepinsta prime
- **JAVA (Basic)** – HackerRank
- **Software Engineering Job Simulation** – JPMorgan Chase & Co.
- **React Development** – Udemy
- **MongoDB Certification** – MongoDB University

TECHNICAL PROJECTS

Surplus Food Management (JAVA, Spring Boot, React JS, MySQL)

- Designed and developed backend components for a Surplus Food Management system.
- Optimized SQL queries and API calls to enhance system performance.

Document Data Duplicate Alert System (Python, Hashlib, MySQL, React)

- Developed a system to detect duplicate data downloads using hashing techniques.
- Implemented a React-based UI for real-time alerts and metadata tracking.

ACHIEVEMENTS

- Winner of **Hackathon** conducted by Kings Engineering College (Prize: ₹15,000).
- Organized hackathons and inter-college coding events as **President of Programmers' Club, SVCT**.
- Elected as **President of CSE Association** at SVCT.
- Received **Leadership Award** for contributions to technical events and mentoring.

TOOLS & TECHNOLOGIES

C, Java, Spring Boot, React.js, MySQL, MongoDB, Git, Docker, Postman, Gradle.
